

Summer 2023

Summer is looking super in Year 4!

History

In History, children will be learning about the Romans. We will be looking at what life was like for the Romans, with a key focus upon the impact they have had on our lives today. We will also be making comparisons between how the Romans worshipped and what they did for entertainment, and how this differs to what we know today.

Geography

Within Geography, we will be exploring our European neighbours in more detail. Children will be exploring and answering key questions including Where is Europe? What are the features of Europe?, What capital cities are there in Europe? Children will have the opportunity to compare

Notices

P.E is on Monday and on Thursday. Children will need to arrive at school in their P.E kits and will remain in their kit for the whole day. Please remember joggers/tracksuit depending on the weather.

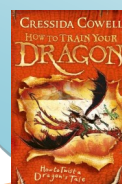

Please ensure children have a water bottle in school daily.

Remember to check Marvellous Me for regular updates.

Literacy

In Literacy, Year 4 will be starting this term with Break the Mould by Sinead Burke. We will then move on to, The Secret Garden, by Frances Hodgson Burnett and How to Train your Dragon, by Cressida Cowell. We will also be looking at non-fiction texts that relate to the Romans.

Science

In our Science topics, Year 4 will be studying habitats in further detail. We will be researching and investigating habitats in our local environment, and how we can make a positive change to help to improve this.

In addition to this, electricity will be explored, in which children will experiment with electrical circuits after finding out what electricity is. Children will explore a variety of components to electrical circuits, including conductors, switches and bulbs.

R.E

In Religious Education, children will be answering the question What is the Pentecost? And the impact it had upon Christianity. During Summer 2, children will explore places of worship from different religions. Children will explore Gurdwaras, Mosques, Churches and Temples, drawing comparisons between them.

Reading

All children are provided with a school reading book and reading record. We expect both of these to be in school every day. This is so we can hear the children read both individually and through guided reading sessions. Children are encouraged to read as much as possible and we would ask that they are heard at home so they develop a love of reading.

Computing

In Computing, children will be developing their Digital Literacy and Information Technology using Purple Mash. Children will look at the topics of Animation and Hardware Investigators.

Remember to practise your reading, handwriting and times tables. After half term, we will be completing our Year 4 multiplication check.

Numeracy

In Numeracy will be working on all aspects of mathematics, including number, addition and subtraction, multiplication and division and fractions. It is important that your child continues to practise recalling multiplication facts as they must know these by the end of this year.

Art & D.T

In Art, we will be focusing on an artist called Romero Britto and explore his style. Children will look in more detail at his style and colours and use this to produce their own artwork.

In DT, our topic is edible gardens, in which children will create a healthy pasta sauce from ingredients that can be grown in the UK.

Year 3 and 4 Statutory Spellings

accident	caught	eighth	heard	minute	possible	strange
accidentally	centre	enough	heart	natural	potatoes	strength
